DEMOGRAPHIC DRIVERS OF POPULATION ADAPTATION TO GLOBAL SOCIO-ECONOMIC CHALLENGES

International Scientific Conference XIV Ural Demographic Forum (UDF-2023)

Dear Colleagues,

We kindly invite you to take part in the 14th Ural Demographic Forum “Demographic drivers of population adaptation to global socio-economic challenges” (UDF-2023), which will be held in Ekaterinburg 31st May – 2nd June, 2023. The location of the Forum is the Institute of Economics of the Ural Branch of the Russian Academy of Sciences at 29, Moskovskaya St., Ekaterinburg, Russian Federation.

The Forum aims at enhancing scientific cooperation, exchanging experience and scientific results achieved by Russian and international researchers in the field of population science and related disciplines, improving research strategies, and offering practical recommendations concerning demographic development.

The Forum traditionally brings together the representatives of the government, academia, public organizations, theorists and practitioners in the field of population science and related disciplines.

The articles of the participants will have been issued by the beginning of the Forum. All articles will be indexed in RSCI. Selected articles will be published in scientific journals included in the VAK list.

Conference participation mode: face-to-face and online.

UDF-2023 Scope

1. Demographic challenges in the historical retrospective of Russia (19th - early 21st centuries).
2. Demographic processes and socio-economic development: issues of interrelation
3. Socio-psychological adaptation of different population groups to ongoing changes: sociological and psychological aspects
4. The Role of Civil Society in the Formation and Implementation of Russian Demographic Policy in the Context of Global Change
5. Current issues of labor migration
6. Development of the Health System in the Context of Contemporary Demographic Challenges
